

PERMIT TERM 100

Title: Report of Waste Discharge - Reservoir Construction & Land Development

When Used: For reservoirs on perennial streams when construction has not been completed and for all projects where the quality of water of the State could be affected by land development or construction activity involved in achieving the land use with which the appropriation of water will be associated.

Term: In order to prevent degradation of the quality of water during and after construction of the project, prior to commencement of construction, permittee shall file a report pursuant to Water Code Section 13260 and shall comply with all waste discharge requirements imposed by the California Regional Water Quality Control Board, _____ Region, or by the State Water Resources Control Board.

(0000100)

Note - Send copy of permit to Regional Board.
